MISSION STATEMENT

Financial Freedom. It's a mantra at Pocket, LLC. DeFi (Decentralized Finance) allows for a once in a lifetime opportunity; that is, the opportunity for anyone with the dream, drive, and desire to achieve a better life for themselves and their families.

Our goal is simple: to provide the fertile ground for creators to create and appreciators to participate.

With our recent merger with MetaBoards (formerly Memenopoly) we've never been better positioned to achieve amazing things. MetaBoards has demonstrated breath-taking achievements by providing high value NFTs, innovative P2E, staking, farming, and way more!

Pocket's Play to Earn (p2e) will enable independent developers to seamlessly tap into our code and audience base for instant integration and release of fresh and fun games and ideas. Soon, our joint project aims to deliver a full VR game, more NFTs, an expanded NFT Marketplace, and several new utilities.

We all have different stories. But our team and community share common goals and values: speak with integrity, design with passion, communicate with transparency, while always doing our utmost best. Because, after all, there's no reason why you can't do good while doing well.

- Jared
Founder & CEO

COMMUNITY FIRST APPROACH

TAX REBATES

In V1, we changed our taxes, not our values. We made the decision to refund all previous holders in advance to ensure they enjoy the same tax rates as our new community members.

INDUSTRY LEADING P2E

When it comes to p2e payouts, nobody does it quite like Pocket. We've benchmarked against all major p2e platforms and have some of the most generous rewards available.

INNOVATIVE APPROACH

This space changes often, requiring us to function with agility and flexibility. Prioritizing our communities interests, we adjust our taxes and p2e earnings to reflect market conditions. It's not one-size-fits-all.

INCLUSIVE ENVIRONMENT

We firmly believe there is great opportunity in cooperation, not in competition. We frequently partner with other leading companies to provide unique experiences to our holders.

WHO WE ARE

Pocket, LLC. is a legally registered company in the state of Wyoming, USA. In August 2021, Pocket launched Pocket Doge and became a leader in the crypto space. Since that time, we developed several new and innovative products. Pocket's V2 relaunch was a brand overhaul and served to address flaws in the initial contract and provide additional room for growth.

Pocket is driven by a singular focus: Innovation in a space ready for change. Through our upcoming p2e launches, NFT platform, staking, farming, VR games, and Business to Business (B2B) features, we approach the crypto space from every avenue. For gamers of all skill levels, art collectors and DeFi lovers, Pocket offers something for everyone.

Welcome to Pocket. We're happy to have you here on this journey with us. We couldn't do it without you!

OUR VALUES

- 01.** Our community is our partner, our employer, and our team. We will always be upfront and honest.
- 02.** Utility is greater than hype. Our products are designed to provide real world use.
- 03.** DeFi was created to allow anybody to achieve financial freedom. We will do everything in our power to help realize that goal.
- 04.** We want to change the world. There are no monoliths here. We can shape this future in a way that is both lucrative and fair.
- 05.** We believe in giving back to the global community. In the few short months since launch, Pocket has already contributed to over five internationally recognized nonprofits, including the National Association for Drug Court Professionals, the North Shore Animal League, and St. Jude's Children's Research Hospital.

OUR ACCOMPLISHMENTS

WHAT WE'VE DONE

- Almost one year of demonstrated success.
- Doxxed devs.
- Live video chats, AMAs, and interviews.
- p2e live platform: Over \$100k paid out.
- Two additional p2e games in development.
- Legal entity as an LLC.
- Release of two music videos.
- Listings on CMC, CG, and DexTools.
- Established several major token partnerships, including EverRise and BurningMoon.
- Acquired Memenopoly, an NFT project with the 4th largest trading volume of all time on Treasureland marketplace.

WHAT'S TO COME

- Updated dApp roll out
- Generous rewards with staking
- Memenopoly's full rebirth as Metaboards
- MetaBoards presale and game release
- The Vault (more information on page 11)
- Migration of large LP, reducing volatility and increasing project's stability and sustainability

POCKET

Pocket's primary objective is to be the B2B side of our offerings. Payments for B2B offerings are made through \$PCKT holding requirements and direct payment. Holding Pocket's namesake token, \$PCKT, gives its community the best way to take advantage of our ecosystem's growth as each aspect feeds into \$PCKT revenue, with proceeds distributed to holders of \$PCKT. The B2B offerings include:

- White-label presale platform
- NFT bridge
- Token bridge
- Additional services TBA

As demonstrated to the right, funds from the gameplay, NFT sales, Buy and Sell taxes, et. al., feed back into Pocket, allowing holders to benefit from MetaBoards revenue via buyback and other mechanisms. Pocket's p2e provides holders with another method to earn additional \$PCKT.

METABOARDS

METABOARDS

\$mPCKT is Pocket's in-game currency for all V2 games.

\$mPCKT offers holders the following:

- Gameplay on MetaBoards
- NFT and token staking
- NFT sales platform
- The Vault (additional details on page 13)
- A pegged and relatively stable token
- Over 10 different ways to earn and maximize your gameplay earning

POCKET

THE ECOSYSTEM

METABOARDS

*Represented above: Pocket as the overall ecosystem with profits from MetaBoards, NFT sales, taxes, gameplay, etc., feeding back into Pocket.

METABOARDS

MORE ABOUT METABOARDS

MetaBoards is an entirely unique and revolutionary blockchain-based game. You've played Monopoly, we assume. Probably even lost a few friendships as a result of it. Who hasn't?

The concept is similar, minus the lost friendship.

Your roll is completely randomized by Chainlink's VRF. You buy properties (Randomized NFT Packs) and when a user lands on your space, they pay rent. When you land on somebody else's property, you pay rent.

This game is comprised of over 30 contracts across multiple chains. That's the basics.

MetaBoards also offers staking of NFTs and tokens, daily rewards, NFT sales, The Vault, and so much more.

Oh yeah, did we mention it's in VR?

*Virtual Reality gameplay is an optional experience. A VR headset is not required to play the game. A headset is only required to play the game in VR.

MIGRATION, PRESALE, LAUNCH

Prior to launch and thereafter, current \$MNOP holders will have the ability to migrate their tokens to \$mPCKT. The base migration rate is 20:1. For example, 20 \$MNOP tokens are the same as 1 \$mPCKT token. Users will have the ability to select either an immediate 20:1 migration or create their own vesting schedule for up to a 1:1 migration (more details in Appendix). This is a very unique presale process conducted entirely within our own dApp on BSC, Polygon, and Ethereum.

Interested parties will be able to participate through the purchase of "Distro Packs" which provide both NFTs and Tokens. The NFTs are used within the Pocket/MetaBoards ecosystem and gameplay, significantly enhancing and expanding the user experience.

The private sale is exclusively for those who hold \$PCKT and/or \$MNOP, as well as private arrangements. The private sale is vested, meaning your tokens unlock over a set period of time. This presale follows the completion of the private sale.

The launch will be in multiple phases. Given the complexity of the overall project, our launch will be done in the following stages:

- Stage 1: The migration process opens along with The Vault
- Stage 2: The store opens; private sale begins, followed by the presale.
- Stage 3: Staking is enabled and the token is launched

\$PCKT REACTIVE TAXES

A good company sets the pace. A better company sets the pace but is able to respond to ever-changing market conditions. In order to cement our place as leaders in the crypto space we have to be, well, *not* so cemented with other things. This is why our V2, \$PCKT, provides variable tax rates, with a base rate of 9% when the market is stable.

\$MPCKT EARNINGS MENU

SOME OF THE WAYS TO EARN

EARN WITH \$MPCKT

- Chest spaces, moon jackpot, super payday (play MetaBoards)
- Rent payments when someone lands on your space (NFT)
- Stake \$mPCKT for rewards points and more \$mPCKT
- HODL and watch the price rise

EARN WITH VAULT SHARES

- Burn mPCKT for Vault Shares
- Give/Burn NFTs for Vault Shares
- HODL \$mPCKT for Vault Shares

EARN WITH NFTS

- Stake NFTs for rent payments and farm rewards
- Resell NFTs on secondary market
- NFTs with guaranteed daily rewards

These are just some of the many ways to earn!

Don't forget our generous migration vesting rewards and so much more!
